Brief Description

Trade-oriented, informative, always in the thick of things: Der Elektromarkt is an industry magazine for the electronics trade: We are aimed at people in the electronics trade and companies from the home and consumer electronics sectors.

As one of the oldest trade magazines in the industry, Elektromarkt is the competent mouthpiece between manufacturers and retailers. In order to efficiently support retailers in their customer orientation at the PoS, we focus on the devices in line with the end consumers' living environment - similar to a concept store.

In addition to new products and trends, we offer retail and industry know-how with trade reports, columns such as „In the Test“ and background articles on specialist topics, trade fairs or companies.

But we are not only present on paper: The Elektromarkt homepage supplements the print edition with daily reporting. With the Elektromarkt newsletter, we offer a further, regularly published information platform. Our trade magazine also has a presence on social media: Visit us on LinkedIn or Instagram and stay informed.

We make the home smart - in the magazine, on the web, and in retail!

Making homes smart

ELEKTRO MARKT

Welcome to the Elektromarkt!

Elektromarkt showcases ranges and brands in a consumer environment. Just like a concept store, the products are not presented in different product groups but in home settings. In doing so, we invite our readers to come with us on a journey of discovery through the home. After all, be it in the kitchen, office or garden – electrical goods make our everyday lives that little bit easier in all settings. Lounges, for example, are not just home to the TV, but often accommodate vacuum cleaners or ironing systems. Kitchens are full of useful helpers such as breakfast sets, food processors and espresso machines. Just as indispensable are the "big" appliances such as hobs, fridges and dishwashers. Baths and bedrooms are home to electric razors, hairdryers and curling tongs, whilst washing machines and tumble dryers take care of the laundry. And in the garden, lawn mowers, leaf blowers and electrical hedge trimmers are all waiting to be used. Not forgetting, of course, the potential offered by the smart home!
